| **National Poverty Lines (5 members family)**                            | • Canasta Basica (CB) represents the total cost of a basic basket of food items plus other school supplies, non-food elements and transportation services. It is mainly composed of food (such as dairy products, meat, fish, vegetable, fruits, basic grains, eggs, flours, pasta, sausages, sugar, bread, and others), as well as non-food items, such as transportation services, and school supplies.  
  • The total CB estimated by the Secretariat of Labor in January 2015 was HNL $7,778.18/month, for a five-member family. | STPS 2015 Secretaria de Desarrollo Economico | 7,778.18            |

</table>
| **World Bank ‘international poverty line’ (2011 PPP$ 3.10/day)** | • Poverty is measured by the World Bank at PPP$3.10/day.  
• The $3.10 equivalent is (11.23* 3.1) = HNL 34.81  
• On a monthly basis, this is (HNL 34.81* (365/12)) = HNL 1058.90.  
• Adjusted for inflation, this amount is [209.51 (286.44 (CPI 2015)/276.03 (CPI 2014) * HNL 1058.90] HNL 1098.83/person/month  
• The household equivalent of HNL 1098.83, assuming two consumption units and one earner is HNL 2197.66/month. | WB 2011 ICP | 2,197.66 |
| **Living Wage Estimate**  
**EMIH (5-member family)** | • Following the study “Towards a living wage in the maquila sector in Central America” conducted initially in 2013 by the Maquila Solidarity Network, and four civil society organizations working in Central America, EMIH published an update in 2014, providing HNL 16,077.60 household/month as a living wage based on a household of five members.  
• The methodology is based on comparing the cost of the “Canasta Básica Vital or Canasta Ampliada (‘extended basket’) with the maquila sector minimum wage  
• Adjusted for inflation using IMF WEO ICP (to 2015 value): 16683.93/household/month. | Equipo de Monitoreo Independiente de Honduras (EMIH) | 16,683.93 |
| **Living wage Estimate**  
**Worker Rights Consortium/ CAP (1 adult, 2 children, and 1 earner)** | • The figure comes from a paper prepared for the Center for American Progress (CAP) by the Worker Rights Consortium (WRC). The living wage figure for Dominican Republic for 2011 was DOP 21,236.96 (based on the 2008 WRC living-wage figure and adjusted using consumer-price-inflation from the World Bank, see p.16 and Table 2 in p.18 of the report). The WRC assumed that the average worker has a family of four, and that one of the family members represents an additional wage earner whose income covers one-quarter of a family’s expenses. The living wage for a full-time worker is based on the amount that is sufficient to cover the expenditures of three of the four family members—one adult and two school-age children.  
• Figure of 9,845.25 HNL (2011) was extrapolated from Dominican Republic 21,236.96 DOP/household/ month (2011) using PPP$ conversion factors and adjusting for CPI inflation (see p.16 and Table 2 on p.18 of the report).  
• Adjusted for inflation rate using IMF WEO CPI (to 2015 value): 11,995 | Worker Rights Consortium/ CAP | 11,995 |
